

TQF. 2: Section 7 Quality Assurance: Key Performance Indicators

Key Performance Indicators 1-10 must be implemented by the Bachelor of Nursing Science Program to achieve the goals for at least 2 consecutive years. Also, Key Performance Indicators 11-23 have been conducted to achieve the goals, which are considered from the number of Key Performance Indicators and the total indicators of each year.

Assessment criteria

Pass with a very good level refers to conducting and passing Key Performance Indicators 1-10 completely and passing Key Performance Indicator 11-23 (only those are assessable each year).

Pass with a good level refers to conducting and passing Key Performance Indicators 1-10 completely and passing Key Performance Indicator 11-23 at least 80% (only those are assessable each year).
