Teaching and learning activities

1. Participatory lecture
2. Group brainstorming activities to solve health problems
3. Self-directed learning
4. Innovation-Research-based teaching and learning Group brainstorming activities to solve health problems to organize innovative projects for health promotion community participation
5. Integration of academic services and teaching and research as shown in the table

Integration	Projects	CLOs
1. academic services	1. Project of building a network for the development of a long-term care system for the elderly	1. Explain and apply the principles of communication for health in changing health habits
2. Development of identity, communication skills	2. Project of the development of long-term care model for the elderly by community participation	2. Plan and implement community health promotion using social capital, art and culture of the community as well as evaluating the project
3. Preservation of arts and culture		3. Use communication skills in organizing projects / innovations, strengthening community health with creativity and participation.

Teaching materials

1. Teaching documents
2. Power Point
3. Textbooks, journals
4. Secondary data (reports in the communities, Health Promoting Hospital, Tambon Administrative Organization)
5. Real situations

Assessment

Theory 1 credit

1. Knowledge	100%	Assessment
1.1 Final exam: Unit 1-5 (48 items)	90%	
1.2 Writing a health promotion project using NID 206-01 assessment form	10 %	Individual

Practice (1 credit)

2. Intellectual, critical thinking and communication skills	100%	
- Intellectual and communication skills in presenting the health care project using NID 206-02 assessment form	15%	Group
- Intellectual and communication skills in presenting the results of the health promotion projects using NID 206-03 assessment form	20%	Group
- Skills for organizing the innovative projects for community health promotion using NID 206-04 assessment form	20%	Individual
- Report of the project proposal using NID 206-04 assessment form	10%	Group
- Report of the implementation of the innovative projects for community health promotion using NID 206-06 assessment form	15%	
3. Morality and ethnics using NID 237 assessment form (assessed by students and lecturers)	10%	Individual
4. Interpersonal relationships and responsibilities in group work using NID 238 assessment form (assessed by students and lecturers)	10%	Individual

Assessment criteria

Students must attend class/ participate in activities of not less than 80 percent in order to be allowed to take the final exam. The score of students must be 60 percent or more, including not behaving in moral and ethical offenses (copying reports and examinations) in order to pass this course (E).

The score of 60 percent or more will be graded by Norm-Referenced Evaluation. The grades are A, B+, B, C+, C.

Content

Unit 1	Health promotion concepts and application	CLO1	3 hrs.
Unit 2	Principles of writing and development of health promotion projects	CLO2	3 hrs.
	Analysis and application of writing skills in writing health promotion projects	CLO6	1 hr.
Unit 3	Principles and strategies of empowerment	CLO3	2 hrs.

Unit 4	Theories related to health promotion	CLO4	2 hrs.
Unit 5	Communication for health	CLO5	2 hrs.
	Application of communication skills	CLO7	2 hrs.
Total			15 hrs.
Practice			
	Experience training for organizing community health promotion activities	CLO 6,7,8	30 hrs.
Total			45 hrs.
