Teaching and learning activities

1. Preparation of knowledge and understanding in the course for students:

Students attend the orientation of the course. The information provided is about the course descriptions, objectives, skills and knowledge that students should have and be prepared before practice. The duties of professional nurses in the roles of team member, team leader, nurse in charge and manpower rate analysis and analysis of problematic issues in order to improve the service quality of the ward is administered. The topics of morality, professional ethics, relationship building methods, working with others and evaluation of the course are also discussed. The ward nurse performs the orientation before the practice.

2. Preparation of understanding in the context of the ward for students:

Students receive clinical orientation before nursing practice which is provided by the head of the ward together with the lecturer.

3. Development of knowledge and professional practice skills: Students are assigned to practice 8 hours a day, consisting of the morning, afternoon and night duty shifts, including 15 duty shifts, under the supervision of the head of the ward or the professional nurse or the person assigned by the head ward.

4. Development of knowledge, leadership and professional practice skills:

Students are assigned to practice the roles and duties of professional nurses in the ward, including the roles of the nurse in charge, team leader and team member in the morning, afternoon and night duty shifts, covering the roles of clinical management and the nursing practice for patients as follows.

- Leading nursing team
- Internal and external coordination
- Nursing planning
- Pre-post conference
- Nursing analysis and decision making and organizing nursing systems
- Task delegation and coordination
- Supervision and evaluation of nursing practice

5. Practicing Intellectual skills: Students have to analyze the problems for the development of nursing quality which are the problem is shared with the members of the ward.

6. Practicing Communication skills: The activities for practicing communication skills are as follows.

6.1 Presenting the issues / topics selected and being considered by the ward staff using empirical evidence in the development of nursing quality to the advisor of the ward. Students have to meet at least 1 time to discuss the problems with the advisor before doing the presentation.

6.2 Presenting empirical evidence results in the development of nursing quality to the advisor and / or the head of the ward or the person assigned by the head of the ward on the last day of practice

7. Development of interpersonal relationships and responsibilities: Students are assigned to make appointments with the advisor and the head of the ward in order to receive suggestions on how to improve operations.

8. Development of responsibility: It is considered from item 1-7 and the participation of students in evaluating the course on the last day of practice.

Practical experience

1. Working in the role of the nursing team leader / at least 7 times (3 morning shifts, 2 afternoon shifts and 2 night shifts)
2. Analyzing and planning the management of existing resources in order to perform tasks effectively
3. Developing activities / projects to improve nursing quality by using empirical evidence and presenting the project
4. Planning for supervision focusing on nursing supervision

Practice place

1. Patient ward at HRH Princess Maha Chakri Sirindhorn Medical Center
2. Patient ward at Panyananthaphikkhu Chonprathan Medical Center
3. Patient ward at Nakhon Nayok Hospital

Assessment

- | | | |
|-----|--|-----|
| 1. | Practicing as a nursing team leader / nurse in charge (NS 411_01 assessment form: Section 1) | 45% |
| 2. | Morality and ethnics (NS 411_01 assessment form: Section 2) | 20% |
| 2.1 | Evaluated by the advisor | 10% |
| 2.2 | Evaluated by the head of the ward or the person assigned by the head of the ward | 10% |
| 3. | Thinking, analyzing and planning for nursing quality development | 20% |

3.1	Implementation of the development plan (411_04 assessment form)	10%
	Evaluated by the advisor	5%
	Evaluated by the head of the ward or the person assigned by the head of the ward	5%
3.2	Report of nursing quality development (411_05 assessment form)	10%
	Evaluated by the advisor	
4.	Supervision / teaching / knowledge transfer	15%
4.1	Communication skills (NS 234 assessment form)	
	Evaluated by the head of the ward or the person assigned by the head of the ward	7%
4.2	Supervision plan (411_06 assessment form)
