Project Coordinator
    Kornwika Kuptapol   E-mail: kornwika@g.swu.ac.th   Tel. 089-141-5066

1. **Rational of this project**
    After the ending of the semester with coursework, many students of Master of Science in Applied Behavioral Science Research start with the process of organizing research projects, analyzing data and writing report. However, most of these students are confronted with difficulty in limited time to meet with their advisors. Their thesis progressive report shows obstruct with some problems. Curriculum committee agrees to organize seminars to promote the thesis of graduate students, able to timely propose a quality thesis project and final report. This project arranges for supporting the developing thesis and let advisees to meet their advisors in order to effective progress on their thesis.

2. Objectives of this project
    1. To support and promote students to make progress on thesis in line with curriculum philosophy
    2. To make the chance for curriculum committee directly giving academic suggestions and advice that are benefits for students' academic progress

3. Target group
    Students of the MS in Applied Behavioral Science Research who are in between operate their thesis

4. Output and Indicators

Output	Indicators (Target value)
Number of students submit proposal and oral examination	Quantitative indicator More than 50% of students who join this project Qualitative indicator Students pass progressive assessment criteria Students express good satisfaction scale for the project arrangement

5. Activities

1) Students report the progress of their thesis and get suggestions from the curriculum committee

2) Dividing students into 4 groups as follow:

Group 1 Developing proposal

Group 2 Developing research instrument

Group 3 Analysing data and summarize analyzed data

Group 4 Writing discussion and research articles
